

Testimonials:

"I have suffered for the past 10 years with migraine headaches and nausea so severe it would take many pain killers and at least 14 hours of sleep to recover. Now with the Pyradym, my pain is gone in less than an hour!"

- Teresa, Asheville, NC

"I am forever grateful to Pyradym, I found myself at a place of emotional crisis, losing sleep and unable to shift through the process on my own. The right frequencies restored me to a balanced state and I am thankful for the restful nights of sleep I now have again."

- J. Garrity, Naples, FL

"Amazing—I went way out to different places. I could feel movement in my muscles, and even felt bones move. I felt lots of movement in my pelvic area. I "asked" Pyradym to work on my left shoulder and lymphatic system, and now my should feels better; much looser. It was very relaxing and expanding. Afterwards, I noticed light "looks" different, and I feel much clearer and lighter—more expansive. So glad it's finally here."

- Stephanie Huntington, Boulder, CO

"Very relaxing—stimulating type of relaxation. It was one of those experience where I wasn't sure if I nodded out—very smooth. Also, the different frequencies of the phyioacoustics were interesting. As I became settled in with a vibration, the shift of the new frequency would feel inviting in a very smooth way."

- Dennis Marshall, Denver, CO
