

Egyptian Mystery School – Taught by Margie M. Mulligan

Andye M

The changes in my life since I began the initiation into the Pre-Dynastic Egyptian Mysteries have been remarkable. Professionally and personally, using the chants and working with the Neters has been a huge boost in my life. While going through the initiations, it often felt like many life events had conspired to get me to that point so the healing could have the most impact. I have been able to incorporate the healing chants into my shamanic practices with great results for my clients. I feel that all my life had come to this process so I could bring the best of myself to the world.

Though challenging, the process has brought me to completion of myself and the work I have been asked to do in this world. My gratitude to Margie and Nadia for carrying on this sacred tradition so we may all be re-membered!

Brett E

I received many things from the Mystery School:

- * Different tools and techniques for further spiritual development and things I can share with my clients who are either in some kind of pain, confusion or just wanting to go more deeply on a spiritual level.
- * I looked forward to the classes - they were 'my day' of spiritual cleansing and refreshing, and as a working mom, time like that is precious!
- * I feel I have grown very much, spiritually, and am more grounded and able to connect on a higher level with myself and my gods, and, as well, I feel like I have tools to overcome life's inevitable adversities.
- * I really liked the meditations and journeys that accompanied them - I learned more about myself, my neters and guides and really feel like I am significantly more spiritually connected.

Kim G

I felt that Mystery School was very helpful in beginning with the base chakra and working our way up to the crown. We learned early which issues were associated with each chakra, and it seemed that life always provided me with a perfect example of the issues that we would be working on in the weeks leading up to each initiation.

The initiations always gave a fresh perspective, and the psycho-spiritual exercises for each chakra provided a reference point and a framework for working through life's challenges. I look forward to deepening what I learned.

Barbara P.

The first time I met Margie Mulligan she began talking about the Egyptian Mystery School. I had a stirring of excitement, and had her tell me all she could of her teacher Nadia K. Eagles. I then had a dream of Nadia, and felt compelled to experience the Mystery School for myself, so I asked Margie if she would take me through it. Hence, I became her first "student", and she took me and others through all the ceremony and teaching.

For me, it was like remembering what I had known, but forgotten. It was very organic and cellular.

I believe many of the ideas of the Egyptian Mystery School were passed through the ages to emerge in our time as various other Work Schools. I recognized certain ideas from Oscar Ichazo's school. The Egyptians had a very precise visual map of the Psyche and all its' forces and movements, leading one out of identification to freedom.

I feel complete.
