Who will be teaching this Mystery School?

Nadia K. Eagles (left) was my Mystery School teacher 22 years ago. She has since transitioned into Spirit and, from that place, has agreed to partner with me, Margie M. Mulligan (right), to teach the Pre-Dynastic Egyptian mysteries to a current generation of students. I will teach the class, Nadia will be present during and between classes guide us all, when needed. This teamwork will serve

you to apply the ancient teachings to your modern life.

What is an Egyptian Mystery School anyway?

The Egyptian teachings are based on the story of Osiris, who was the first human to become a god or Neter by re-creating himself, with the help of his consort Isis and her sister Nephtes. The mysteries of Egypt are a symbolic representation of the journey up the Nile, with each temple representing a chakra. The goal is to purify each chakra and build an etheric temple or spirit body called the Sahu in the underworld for conscious use after death. Having this temple makes this life better as well. This Egyptian process of “God-making” is similar to what folks in other traditions call the ascension process, where you connect strongly with your Higher Self/Soul.

This is called a Mystery School because the teachings are dealing with the invisible, energy or spiritual nature of our consciousness. The spiritual teachings and practices are not understandable from our logical or mental body, so they seem like mysteries or magic. The spiritual body or our intuitive nature is needed to understand these teachings. Making a connection between our logical and intuitive natures makes for a whole brain/mind and supports our connection with Spirit or Divine Consciousness.

During the journey, the cosmos is seen as created by each Neter (god/goddess). The sequence of the sessions is:

- 1st Chakra - Osiris, Isis, earth (yellow cube)
- 2nd Chakra – Selkis/Sorquet, water (silver crescent), Horus/Set (light and shadow)
- 3rd Chakra - Amon Ra, fire (red triangle)
- 4th Chakra – Hathor, the neter of the heart/divine compassion (clear white light)
- High Heart – The Beloved
- 5th Chakra – Neith, air (blue circle)
- 6th Chakra – Sekhmet, fire of illumination (indigo egg of akasa)
- 7th Chakra – Thoth and Maat (indigo egg of akasa)

How would the Mystery School work?

The Pre-Dynastic Egyptians that I was initiated into kept their spiritual practices for developing higher consciousness secret for 17 generations, handing them down from teacher to student each generation, in total secrecy. When the energy of the Harmonic Convergence in 1987 indicated that the timing was right, my teacher, Nadia K. Eagles, was allowed to reveal them, publically, to a group of 50 initiates. This Mystery School was held over a period of 2 years, and a core group stayed in close contact with each other until 1992, using the practices on a regular basis to create the etheric temple, the SAHU, higher self.

Nadia did not identify any of us from the Mystery School to carry on teaching the Egyptian Mysteries after she left the physical world. However, she is on my Soul Council and I have received permission from her to lead these Egyptian initiations to a small, select group of individuals. I will present the concepts and principles, as well as leading practices and answering questions. If you are guided to attend, then you may be one of these people.

The Mystery School starts with the base chakra and begins the process of creating the SAHU body by learning to contact Neters or divine beings associated with each chakra. It ends with an Initiation into the crown chakra. These teachings are mostly Initiatory (deep trance work and ritual), and will be held every two or three at a time, with 5-6 weeks between sessions. Before each session, you will receive a preparation assignment. The purpose of these preliminary

materials is to trigger the energy needed for the Initiation. To this end, we will give you information about the Neters for the current chakra and practices to be done before each session to deepen the energy.
